

Patient Telehealth Consent Form

Thank you for the opportunity to serve you! We look forward to becoming your partner in your health care and understanding your health care needs better.

Please review the follow consents PRIOR to your visit with us. We will ask you during the initial visit if you had the opportunity to review the consents and allow you the opportunity to ask any questions.

General Consent for Care and Treatment. I have the right, as a patient, to be informed about my condition and the recommended surgical, medical or diagnostic procedure to be used so that I may make the decision whether or not to undergo any suggested treatment or procedure after knowing the risks and hazards involved. At this point in my care, no specific treatment plan has been recommended. This consent form is simply an effort to obtain your permission to perform the evaluation necessary to identify the appropriate treatment and/or procedure for any identified condition(s).

This consent provides us with your permission to perform reasonable and necessary medical examinations, testing and treatment. By my verbal consent, I am indicating that (1) I intend that this consent is continuing in nature even after a specific diagnosis has been made and treatment recommended; and (2) I consent to treatment at this office or any other satellite office under common ownership. The consent will remain fully effective until it is revoked. I have the right at any time to discontinue services.

I have the right to discuss the treatment plan with my physician about the purpose, potential risks and benefits of any test ordered for me. If I have any concerns regarding any test or treatment recommend by my health care provider, I am encouraged to ask questions. I voluntarily request a physician, and/or mid-level provider (nurse practitioner, physician assistant, or clinical nurse specialist), and other health care providers or the designees as deemed necessary, to perform reasonable and necessary medical examination, testing and treatment for the condition which has brought me to seek care at this practice. I understand that if additional testing, invasive or interventional procedures are recommended, I will be asked to read and sign additional consent forms prior to the test(s) or procedure(s).

I certify that I have read and fully understand the above statements and consent fully and voluntarily to its contents.

Consent to Treatment Using Telemedicine. I consent to treatment involving the use of electronic communications to enable health care providers at different locations to share my individual patient medical information for diagnosis, therapy, follow-up, and/or education purposes. I consent to forwarding my information to a third party as needed to receive telemedicine services, and I understand that existing confidentiality protections apply. I acknowledge that while telemedicine can be used to provide improved access to medical care, as with any medical procedure, there are potential risks and no results can be guaranteed or assured. These risks include, but are not limited to: technical problems with the information transmission; equipment failures that could result in lost information or delays in treatment. I understand that I have a right to withhold or withdraw my consent to the use of telemedicine in the course of my care at any time, without affecting my right to future treatment and without risking the loss or withdrawal of any program benefits to which I would otherwise be entitled.
